

What's new and planned for Dynamics 365 Business Central

This topic lists features that are planned to release from April 2020 through September 2020. Because this topic lists features that may not have released yet, **delivery timelines may change and projected functionality may not be released** (see [Microsoft policy](#)).

In the **General availability** column, the feature will be delivered within the month listed. The delivery date can be any day within that month. Released features show the full date, including the day of release.

This check mark (✓) shows which features have been released for public preview or early access and for general availability.

Application enhancements

The Business Central ideas site (aka.ms/bcideas) is a constant source of suggestions for improving the application. For this release we have updated minor features based on the feedback in the ideas site and have made several improvements to the bank reconciliation functionality.

Feature	Enabled for	Public preview	General availability
Auto-insert recurring sales and purchase lines	End users, automatically	Jan 2020	Apr 2020
Enhanced customer and vendor document layout	End users, automatically	Jan 2020	Apr 2020
Manage direct-debit collections in Service Management	End users, automatically	Jan 2020	Apr 2020
Notify requester about all changes for an approval request	Admins, makers, or analysts, automatically	Jan 2020	Apr 2020
Receive more items than ordered	End users, automatically	Jan 2020	Apr 2020
Revert Qty. to Invoice when canceling order	End users, automatically	Jan 2020	Apr 2020
Bank reconciliation improvements	End users, automatically	Feb 2020	Apr 2020
Multiple languages	End users, automatically	Feb 2020	Apr 2020

Country and regional availability

Availability of Dynamics 365 Business Central is expanding regularly and here we describe the plans for expansion going forward.

Feature	Enabled for	Public preview	General availability
Expanded country and regional availability	End users, automatically	Feb 2020	Apr 2020

Partner acceleration

Feature	Enabled for	Public preview	General availability
API for continuous delivery of the AppSource apps via Azure DevOps services	Admins, makers, or analysts, automatically	Apr 2020	Jul 2020

Migrations to Business Central online

Moving from an on-premises solution to Business Central online is a major area of focus for our partners and customers. With the 2020 release wave 1, we further enhance the scenarios for migrating data from Dynamics GP, Dynamics SL, and Business Central (on-premises) to Business Central online.

Feature	Enabled for	Public preview	General availability
Migrate data from Business Central 14.x on-premises to Business Central 15.x online	End users, automatically	Jan 2020	Apr 2020
Enhanced Dynamics GP Chart of Accounts migration	End users, automatically	Feb 2020	Apr 2020
Migrate all or only active customer master records from Dynamics GP	End users, automatically	Feb 2020	Apr 2020
Migrate all or only active vendor master records from Dynamics GP	End users, automatically	Feb 2020	Apr 2020
Enhanced Dynamics GP inventory data migration	End users by admins, makers, or analysts	Apr 2020	Apr 2020

Modern clients

Feature	Enabled for	Public preview	General availability
Disable export of data to Excel	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Enable non-interactive printing with advanced printer selection	End users, automatically	Feb 2020	Apr 2020
Enhanced mobile accessibility related to device orientation	End users, automatically	Feb 2020	Apr 2020
Import profiles and UI customizations	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Improved load time for pages	End users, automatically	Feb 2020	Apr 2020
Improvements to data entry	End users, automatically	Feb 2020	Apr 2020
Improvements to filters and views on lists	End users, automatically	Feb 2020	Apr 2020
Improvements to pages composed of multiple parts	End users, automatically	Feb 2020	Apr 2020
Navigate trees more easily	End users, automatically	Feb 2020	Apr 2020
Unhide parts on a page	End users, automatically	Feb 2020	Apr 2020
Collapse and expand document lines	End users, automatically	Mar 2020	May 2020

Modern developer tools

Feature	Enabled for	Public preview	General availability
AL interfaces	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Application version for aliasing base application	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Camera/location AL API available in the browser	End users by admins, makers, or analysts	Feb 2020	Apr 2020
Look up events and insert event subscriber in code	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Multiple variable declarations of the same type in the same line	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020

Feature	Enabled for	Public preview	General availability
Obsolete tag and URL properties	Admins, makers, or analysts, automatically	Feb 2020	Apr 2020
Ability to refactor a field from a table to a table extension	Admins, makers, or analysts, automatically	Mar 2020	Apr 2020

Onboarding

Feature	Enabled for	Public preview	General availability
Improved onboarding experience	End users, automatically	Feb 2020	Apr 2020

Power Platform

Feature	Enabled for	Public preview	General availability
Business Central integration with Common Data Service	End users, automatically	Feb 2020	Apr 2020

Service fundamentals

Feature	Enabled for	Public preview	General availability
Resource limits for reports and web service calls	End users, automatically	Feb 2020	Apr 2020
Telemetry in Application Insights for partners	End users by admins, makers, or analysts	Feb 2020	Apr 2020
Read scale-out	Admins, makers, or analysts, automatically	Mar 2020	Apr 2020

Description of **Enabled for** column values:

- **End users, automatically:** These features include change(s) to the user experience for end users and are enabled automatically.
- **Admins, makers, or analysts, automatically:** These features are meant to be used by administrators, makers, or business analysts and are enabled automatically.

- **End users by admins, makers, or analysts:** These features must be enabled or configured by the administrators, makers, or business analysts to be available for their end users.

For a list of the countries or regions where Dynamics 365 business applications are available, see the [International availability guide](#).

For more information about geographic areas, data centers (regions), data storage, and replication, click **expand all** on the [Where your data is located page](#) and find the Microsoft cloud service for this feature.
